Bar Storage

Barbell Storage

Weight stack

- 1 Magnetic pin with Coil Cord Elastic Rope is super adsorption to avoid slipping during exercise.
- 2 Weight stack: $(19+1) \times 10\text{lb} = 200\text{lb}$ high-grade metal weight stack on each side. Just use the pin for easy adjustment to start the fitness journey.
- 3 The colorful stickers make the training stage levels clear and visible.

Smith Structure

❶ $\phi 25$ Solid Hard Chrome Plated Guide Rod

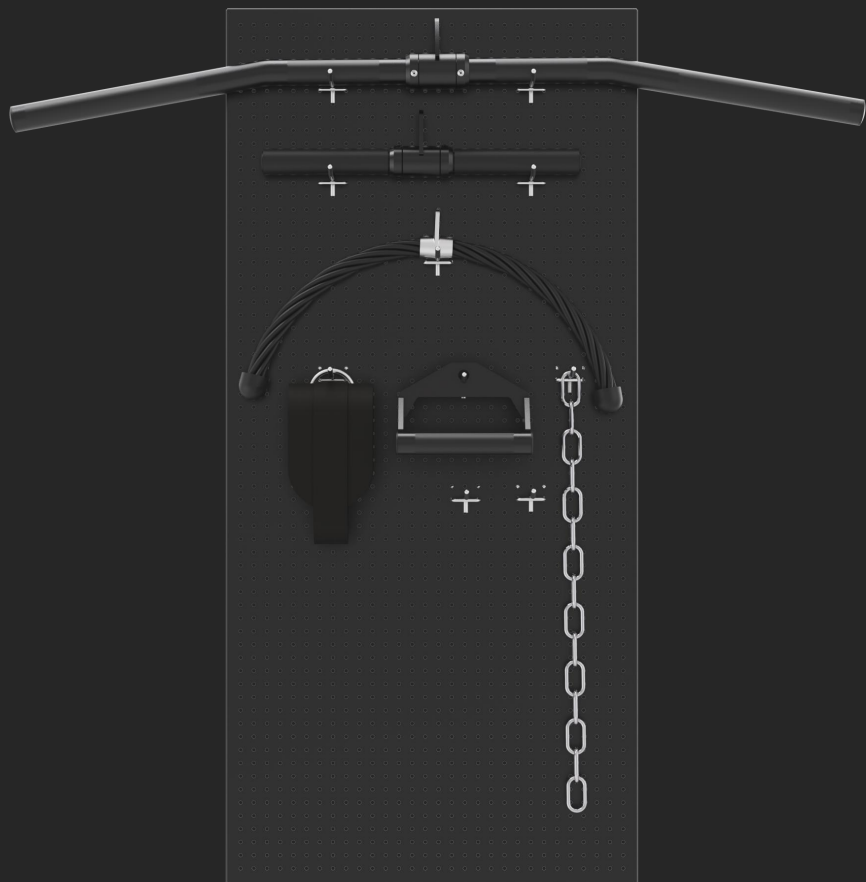

❷ $\phi 30$ Solid Knurled Chrome-Plated Weight Bar

❸ Stainless Steel Hook
Optimized Hook and Shaft Fitting Design
It can effectively avoid disengagement when the weight bar is subjected to strong impact.

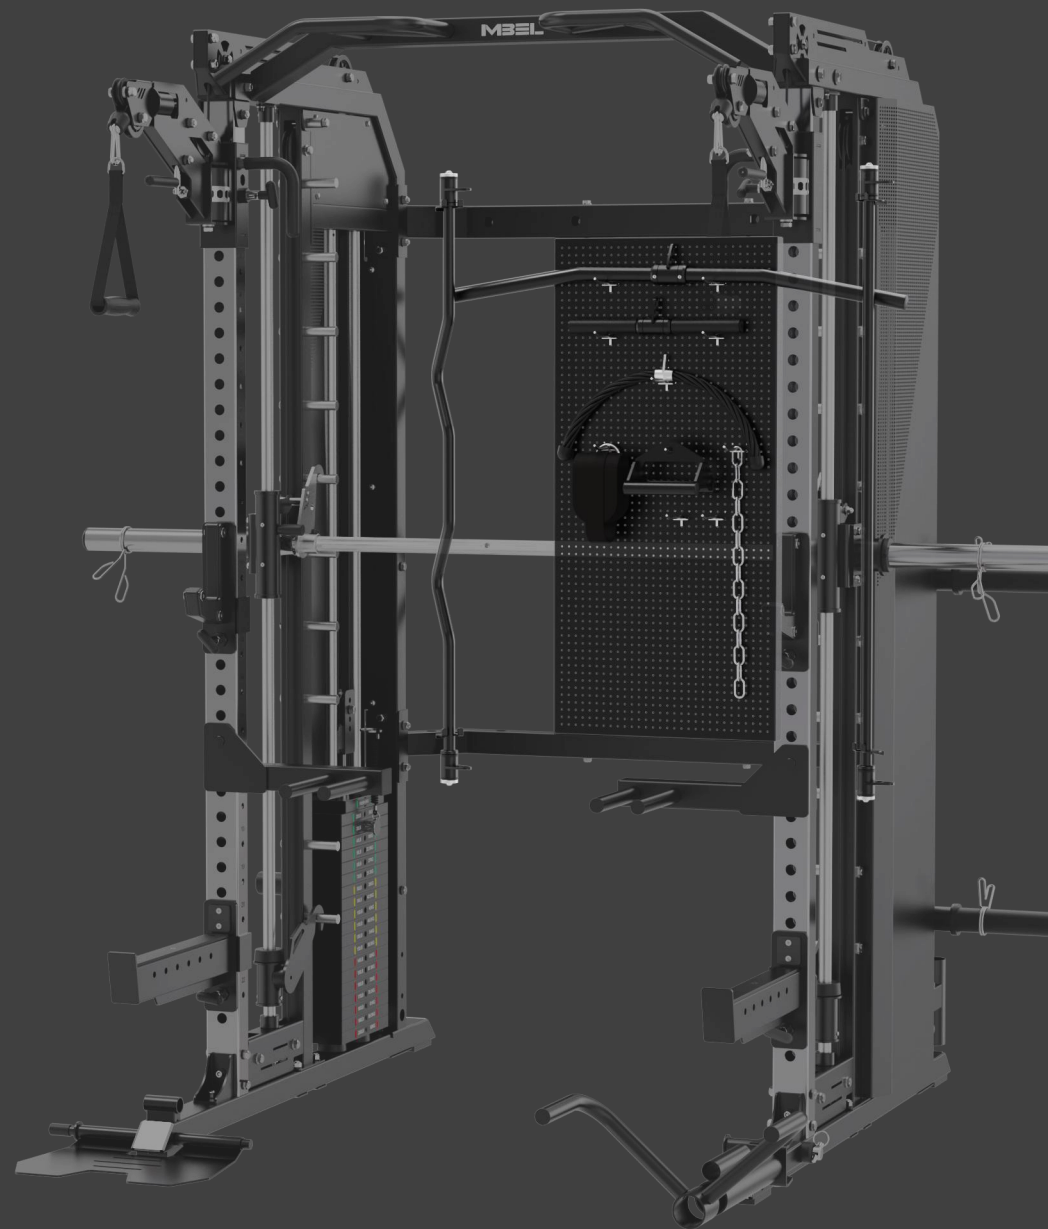

❹ Solid chrome plated stop post limit column is strong and durable.

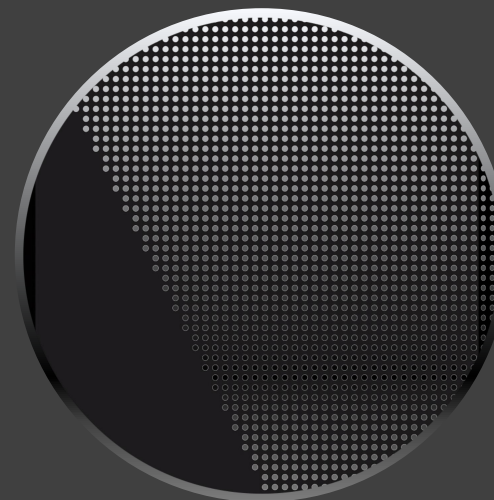

Pegboard

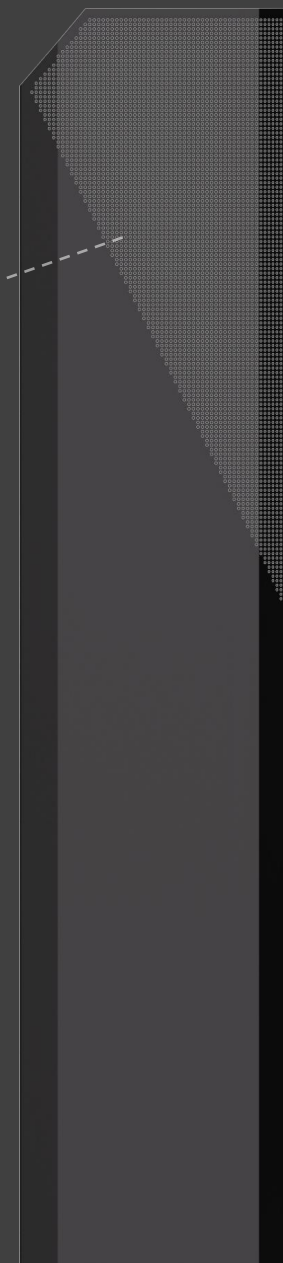

Additional pegboard components can be purchased separately as an optional attachment to expand storage space, thereby enabling the standardized and organized management of fitness settings. The basic configuration consists of a pegboard and 10 hooks.

Metal cover

Punching technology enables personalized customization of the hollow patterns.
